Vera Mezhvynskiy

Boston, MA 02163 ◆ 6176087864 ◆ vera.mezhvynskiy@gmail.com

Education

Master of Science: Comp Sci W/Data Computing MS, Expected in Jan 2028
Boston University - Boston, MA

Bachelor of Science: Mathematics & Computer Science, May 2013
State University - Republic Of Moldova

- Awarded **Merit-Based Scholarship**

Skills

- Python, NumPy, Matplotlib, Scikit, JS
- Machine Learning and Artificial Intelligence
- SQL, Relational Database Systems
- Agile/Scrum Methodologies,
- Data Structures and Algorithms
- Data Analysis, Feature Engineering
- Git, Software Debugging & Testing
- Presentation & Communication

Professional Experience

Software Developer, Jun 2018 - Jun 2019
Playtech – Kyiv Ukraine

- Maintained React applications and added small features.
- Built user-friendly, responsive web interfaces using HTML, CSS, and JavaScript.
- Tested and debugged websites to improve functionality and performance.

Software Developer, Mar 2017 - May 2018
TaSoft – Kyiv Ukraine

- Developed and tested React applications, adding new features and working within an Agile team.
- Built responsive web applications using HTML, CSS, and JavaScript.

Math Teacher, Aug 2013 - Jun 2014
Middle School Panasesti – Straseni, Moldova

- Taught middle school mathematics according to curriculum standards, adapted lessons to meet different learning needs, and used assessments to track student progress.

Projects

Boston House Price Prediction | Data Science Course

- Developed a house price prediction model using data collection, exploratory data analysis, data cleaning, feature engineering, modeling, and cross-validation. The models used were mainly regression and K-nearest neighbors (KNN), and the evaluation metrics were root mean squared error (RMSE) and R-squared (R^2).
